

HYDR-AID
Electrolyte Replacement Drink
Orange & Lemon Flavor

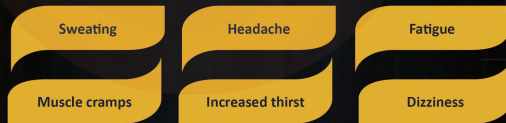

WHY HYDR-AID ?

Dehydration causes excessive loss of body water, with an accompanying disruption of metabolic processes

Dehydration is a common problem which affects almost everyone. Babies, elderly, pregnant and nursing mothers, overweight people and people doing physical labour are especially more prone to dehydration.

SIGNS TO MILD TO MODERATE DEHYDRATION :

Dehydration due to heat leads to reduction in salts in the body which causes muscle cramps.

When the body sweats excessively, the kidney preserves sodium and throws away potassium.

This results in a deficit of cell water and potassium in it, leading to cellular dehydration and ultimately reduced muscle function and increased muscle cramps.

SCIENTIFICALLY FORMULATED potassium based Rehydration solution such as HYDR-AID is the most effective means to manage mild to moderate dehydration.

Making a DIFFERENCE you can TASTE!

The company has a strong base in the food and pharmaceutical industry. It has unique blends to suit the demands of various industries. With years of experience & technical knowledge, the company has developed a variety of products under the brand name of FORSCH (The Dynamic). The Company manufactures ENCAPSULATED POWDER FLAVOR, LIQUID FLAVOR and PERFUMERY COMPOUND for various industries.

HALAL CERTIFIED PRODUCTS

FORSCH's long list of customers comes from the whole spectrum of the prepared food industry including manufacturer of :

Annatto Colour Oil Soluble, Annatto Bixin Powder, Annatto Nor Bixin Powder, Beet Root red colour, Cur cumin yellow colour, Caramel colour liquid, Caramel colour Powder, Paprika colour, Anthocyanin colour, Chlorophyll water soluble, Chlorophyll oil soluble, Carthamus

Tartrazine, Sunset yellow FCF, Erythrosine, Ponceau 4R, Allura Red, Carmoisine, Amaranth, Chocolate brown HT, Brilliant Blue FCF, Patent blue V, Indigo carmine, Quinoline yellow

Egg yellow, Yolk Yellow, Orange red, Strawberry Red, Rose pink, Raspberry red, Grape, Violet, Coffee Brown, Chocolate Brown, Dark Chocolate, Lime green

Lake Tartrazine, Lake Sunset yellow, Lake erythrosine, Lake ponceau, Lake Allura red, Lake carmoisine, Lake Amaranth, Lake Chocolate brown HT, Lake Brilliant blue FCF, Lake indigo carmine, Lake Quinoline Yellow

RESIN FOR PHARMACEUTICALS

SR NO	PRODUCT	APPLICATION	DRUGS	DOSAGE FORM
1	IONEX WC 20	TASTE MASKING	O-FLOXACIN / NORFLOXACIN ROXITHROMYCIN	SUSPENSION / DISPERSIBLE TABLETS
2	IONEX WC 23	TASTE MASKING	CHLOROQUIN PHOSPHATE / SULPHATE CIPROFLOXACIN HCL QUININE SULPHATE	SUSPENSION / DISPERSIBLE TABLETS
3	IONEX WC 46 POLACRILEX	TASTE MASKING	NICOTINE	CHEWING GUMS
4	IONEX SC 25	SUSTAINED RELEASE	DEXTROMETHORPHAN HBR	SUSPENSION / DISPERSIBLE TABLETS
5	IONEX WC 28	SUSTAINED RELEASE	ISOXSUPRINE HCL	TABLETS OR PELLETS IN CAPSULE
6	IONEX WC 29 POLACRILLIN POTASSIUM	TABLET DISINTEGRATION	SOME DRUGS WHICH ARE HYDROPHOBIC IN NATURE	DISPERSIBLE TABLETS
7	PNEU112	TASTE MASKING	AZITHROMYCIN	SUSPENSION / DISPERSI TABLETS

SR NO	PRODUCT	APPLICATION	DRUGS
1	CALCIUM POLYSTYRENE SULPHONATE BP	NEPHROLOGY RENAL FAILURE PATIENTS	POWDER IN SACHETS SUSPENSIONS IN SACHETS
2	SODIUM POLYSTYRENEO SULPHONATE USP	NEPHROLOGY RENAL FAILURE PATIENTS	POWDER IN SACHETS SUSPENSIONS IN SACHETS
3	CHOLESTYRAMINE RESIN USP	REDUCING EXCESS CHOLESTROL	POWDER IN SACHET

READY-MIX TABLET COATING

Description :

White or coloured granular pre-mixed powder.

Application :

For Film coating using:
Organic solvent/
Aqueous/ Hydro-Alcoholic system.

Description :

White or coloured granular pre-mixed powder.

Application :

For Entering coating of tablets using: Organic Solvent System.

PAR COLOUR FC

Description :

White, Fine, Pre-mixed Powder

Application :

For protective coating of active material against effect of moisture to avoid drug-drug or drug-exipient incompatibility, which affects adversely on the stability of the formulation.

PAR COLOUR PC

PAR COLOUR EC

Description :

White granular pre-mixed powder.

Application :

For formulating sustained released tablets.
